Who You Will Meet

IP strategy requires careful analysis and planning, while IP licensing (and divestiture) is a networking and shoe leather business. The Corporate Intellectual Property Institute provides a forum that fosters casual interaction with accomplished industry leaders involved in all aspects of intellectual asset management.

Decision-makers from best-in-class organizations share their thoughts in panel discussions as well as during informal networking breaks and social events. Join your peers in exploring business development through IP at the 2010 Corporate Intellectual Property Institute.

About the Event

This event takes place at a time of significant change in the IP industry. Intellectual property is now recognized at executive levels as leverageable assets – perhaps as a consequence of this, we see the evolution of business models directed at increasing the liquidity of the IP marketplace.

Join your peers in the heart of Georgia for the 2010 Corporate Intellectual Property Institute. Based in Atlanta, this Institute was formed by IP professionals to share best practices, network, and discuss emerging business issues. Georgia State University’s Robinson College of Business and College of Law were instrumental in laying the foundations of the networking organization; that synergy continues today as Georgia State University hosts the 2010 Corporate IP Institute.

The Institute meets for two full days, as industry leaders participate in panel discussions focusing on pertinent issues facing IP professionals. Experienced practitioners from recognized best-in-class organizations will share learnings on topics that range from taking a first look at your organization’s intangible holdings to reaching out across other industries and leveraging your assets in the global marketplace.

Speaker: Steven J. Kaminshine, Dean, GSU College of Law
Speaker: H. Fenwick Huss, Dean, GSU J. Mack Robinson College of Business
Speaker: Chason Carroll, Director of Intellectual Property, CompuCredit Corporation

8:00 – 9:00  INTER PARTES REEXAMINATION: SUDDENLY ALL THE RAGE
In the last two years (FY 2008 and 2009) more inter partes reexaminations have been filed than in the previous eight years combined, dating back to when inter partes reexaminations began. Why the dramatic increase? It has to do with changes at the Patent and Trademark Office, recent court decisions, and emerging litigation strategies that have come together to make inter partes reexaminations a favorite avenue for invalidating patent claims.

Moderator: Scott D. Malpede, Fitzpatrick, Cella, Harper & Scinto
Panelist: Noreen C. Johnson, Vice President and Chief Patent Counsel, Medtronic, Inc.
Panelist: Geoff Sutcliffe, General Attorney, AT&T
Invited: USPTO Representative

9:00 – 9:15  Networking Break

9:15 – 10:15  MANAGING A NEWLY ACQUIRED CLIENT AND PATENT PORTFOLIO
Many corporations are engaging in a combination of small and large acquisition deals to bring specific technologies, intellectual property, and talent to their company. Once the deal is completed, an acquired client and its patent portfolio become the responsibility of one or more in-house practitioners who often were not involved with the acquisition itself. This presentation focuses on post-acquisition management of patent portfolios including practice tips with real world examples relating to people, paperwork, productivity, and prosecution.

Speaker: Randi L. Karpinia, Sr. Patent Operations Counsel, Motorola Inc.

10:15 – 10:30  Networking Break

10:30 – 11:30  MAKING MONEY THE ETHICAL WAY: PATENT MONETIZATION STRATEGIES
The panel will include members from non-practicing entities and larger than life companies. The panel will discuss the pros and cons of non-practicing entities and how ethical concerns affect the bottom line, including effects on innovation, the patent system, and the economy. Can a patent holder implement ethical strategies when trying to monetize its patent portfolio? Find out from some of the best.

Moderator: James L. Ewing IV, Kilpatrick Stockton
Panelist: Ray Niro, Senior Partner, Niro, Scavone, Haller & Niro, Ltd.
Panelist: Daniel P. McCurdy, CEO, Allied Security Trust

11:30 – 1:00  Networking Luncheon
1:00 – 2:00  EARLY DAMAGES ASSESSMENTS IN IP INFRINGEMENT MATTERS: GAUGING THE SCOPE OF THE RISK WITHOUT KNOWING ALL THE FACTS

In these challenging economic times, risk control and risk assessment have more importance than ever. Early assessment can help make better decisions sooner, but information relevant to the assessment may not be available. Meanwhile, in the patent arena, recent court decisions have dramatically changed the damages landscape. The panel will explore how to assess damages soon after an IP dispute arises, before all the facts are in. Discussion topics include gathering the information helpful to a damages assessment through informal means, identifying the key swing factors in developing an early damages assessment, developing early assessments with and without expert help, and how to use early assessments to control risk and improve outcomes.

Moderator: Daniel W. McDonald, Merchant & Gould, P.C.
Panelist: Geoff Rogers, Patent Counsel, Newell Rubbermaid
Panelist: Alan McDonald, Intellectual Property Attorney, Shaw Industries Group, Inc.
Panelist: Phil Green, Principal, Hoffman Alvary

2:00 – 2:15  Networking Break

2:15 – 3:15  ECONOMICS AT THE USPTO: HOW LAW, TECHNOLOGY, AND ECONOMICS RELATE IN AMERICA’S INNOVATION AGENCY

The United States Patent & Trademark Office is currently engaged in an aggressive program of initiatives to reduce patent application backlogs while also focusing on continuously improving patent examination quality. The USPTO’s Chief Economist will discuss these various initiatives, with a focus on how rigorous economic research can influence our understanding of how these policies relate to technology advancement, innovation, and economic activity more generally.

Speaker: Stuart Graham, Chief Economist, U.S. Patent & Trademark Office

3:15 – 3:30  Networking Break

3:30 – 4:30  ADVICE FROM FEDERAL JUDGES TO IN-HOUSE IP COUNSEL
