The Corporate Intellectual Property Institute provides a forum that fosters casual interaction with accomplished industry leaders involved in all aspects of intellectual asset management.

Decision-makers from best-in-class organizations share their thoughts in panel discussions as well as during informal networking breaks and social events. Join your peers in exploring business development through IP at the 2016 Corporate Intellectual Property Institute.

ABOUT THE EVENT

This event takes place at a time of significant change in the IP industry. Intellectual property is now recognized at executive levels as leverageable assets – perhaps as a consequence of this, we see the evolution of business models directed at increasing the liquidity of the IP marketplace.

Join your peers in the heart of Georgia for the 2016 Corporate Intellectual Property Institute. Based in Atlanta, this Institute was formed by IP professionals to share best practices, network and discuss emerging business issues. Georgia State University’s Robinson College of Business and College of Law were instrumental in laying the foundations of the networking organization; that synergy continues today as Georgia State University hosts the 2016 Corporate IP Institute.

The Institute meets for two full days, as industry leaders participate in panel discussions focusing on pertinent issues facing IP professionals. Experienced practitioners from recognized best-in-class organizations will share learnings on topics that range from taking a first look at your organization’s intangible holdings to reaching out across other industries and leveraging your assets in the global marketplace.

Join us at the 6th annual CIP CUP Charity Golf Tournament on October 3rd at Alpharetta Athletic Club. This event will offer prizes throughout the day, so low and high handicaps should come ready to play!

Complimentary entrance fee will be extended to in-house IP professionals who are also attending CIP.

Registrations is available at gsuip.org/institute.

In 2012, the America Invents Act (AIA) significantly altered the patent litigation landscape, creating three new types of post-grant proceedings for challenging the validity of an issued patent before the Patent Trial and Appeal Board (PTAB). Since their inception four years ago, these post-grant review challenges have proved very effective—often more effective than their counterpart validity challenges in district court litigation. We are pleased to present a panel of three experts who will discuss how companies can incorporate these proceedings into their strategies for defending against patent infringement litigation.

Moderator: James Stein, Patent Attorney, Finnegan, Henderson, Farabow, Garrett & Dunner, LLP
Panelists: Jonathan Stroud, Chief Patent Counsel, Unified Patents, Inc. (Unified)
Panelist: Gabriel Azar, Senior Intellectual Property Counsel, Fidelity National Information Services, Inc.

Networking Break

3:00 – 3:15 Networking Break

3:15 – 4:15 TWO-PART HARMONY OR COGNITIVE DISSONANCE? USPTO AND ABA ETHICS RULES IN THE REAL WORLD

Most patent lawyers practice with a foot in both worlds, representing clients directly in USPTO proceedings, and advising them in related transactions or litigation where patent rights are at stake. This session will examine the application of the 2013 USPTO ethics rules and ABA Model Rules in particular contexts that business lawyers are most likely to face, including highlights of recent USPTO disciplinary decisions.

Moderator: Peter G. Pappas, Partner, Sutherland Asbill & Brennan LLP
Panelist: Cheryl Tubach, Chief IP Counsel, JM Huber
Panelist: Bill Griffin, USPTO Deputy Director, OED
Panelist: Murrell Blackburn, Chief Counsel, Intellectual Property, Southwire Company, LLC

Networking Break

4:15 – 4:30 Networking Break

4:30 – 5:30 INTELLECTUAL PROPERTY'S R&R? RISKS AND REWARDS OF DESIGN PROTECTION FOR GUI AND PRODUCT CONFIGURATIONS

In today's IP legal landscape, product design protection isn't located on Easy Street, at the corner of Rest & Relaxation. Design patents took the lime light in Apple Inc. v. Samsung, proving to have value. In 2012, the America Invents Act (AIA) significantly altered the patent litigation landscape, creating three new types of post-grant proceedings for challenging the validity of an issued patent before the Patent Trial and Appeal Board (PTAB). Since their inception four years ago, these post-grant review challenges have proved very effective—often more effective than their counterpart validity challenges in district court litigation. We are pleased to present a panel of three experts who will discuss how companies can incorporate these proceedings into their strategies for defending against patent infringement litigation.

Moderator: Richard Kirkpatrick, Owner, Patent Designs
Panelist: Ted Heske, Director of Intellectual Property and the Director of Technology Strategy, NanoLumens, Inc.
